# 100 % Feminine Rally

## Its origine

---

Viviane Zaniroli is a passionate fan of classic automobiles and road rallies.

Over the years, she noticed that women, who massively participate in these exciting events, are often relegated to playing the role of co-pilot.

So, to make this dream come true, she drew her inspiration from the Paris - Saint Raphaël (1929 -1974) and created the fabulously original.

***Princesses Rally in the year 2000. Appealing to women's natural sense of elegance and competitive spirit, the Princesses Rally has become a "must" in the international women's motor sport world in just fifteen short years!***

## 100% female event

---

The participants are all motivated by the same desire to have a good time in a friendly, easy-going competition.

For them, this rally is the perfect opportunity to get their minds off their daily routines and away from the mundane stress of today's busy lifestyles. It's a chance to meet other interesting women equally excited.

The **Princesses Rally** is the feminine automobile event chance to discover a new passion, to surprise and surpass yourself and relax during ritzy respites

# A Regularity rally

## Regularity ... a real challenge

The goal in this type of event is to stay as close as possible to the targeted average speed while covering a set distance along a scheduled itinerary.

High speed “racing” capabilities are thus not part of the selection criteria.

Winners are those who manage to navigate their way through the course while carefully maintaining the ideal average speed.

The ideal average speed is determined based on the vehicle’s age, so that older cars can effectively compete with younger models.

***A Regularity Rally is an athletic challenge that requires considerable focus and concentration with a keen sense for precise details and extreme accuracy.***
